

# King County DNRP Water Quality Index

STATION **440** WATER YEAR **2018**

**GAUGE # 37a May Creek @ Mouth**

**Overall Index 70**

King County monitors water quality in May Creek at station 0440, located at the gaging station near the bridge on Lake Washington Blvd and SE 80th Street. King County has collected monthly water quality samples at this location since 1972. The May Creek basin encompasses roughly 8,960 acres and includes 26 miles of mapped streams, two small lakes, and over 400 acres of wetlands. The creek is on the Washington State Department of Ecology's 303(d) list, Category 5, for violations of temperature and fecal coliform bacteria standards. May Creek is also listed for bioassessment scores that indicate that biological integrity is degraded.

## Annual Water Quality Index Scores

Water quality was MODERATE based on data collected 10/1/2017 to 9/30/2018.

## Monthly Scores For Water Year 2018

Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep
92	93	98	94	94	93	91	53	86	73	86	84

## WQI Score Comparison By Water Year

## About The Water Quality Index:

The Water Quality Index (WQI) score is a unit-less number ranging from 10 to 100: the higher the number, the higher the water quality. Scores are calculated from data collected during the monthly routine sampling. For temperature, pH, fecal coliform bacteria, turbidity, and dissolved oxygen, the index expresses results relative to levels required to maintain beneficial uses according to criteria in Washington's Water Quality Standards, WAC 173-201A. For nutrient and sediment measures where there are no standard, results are expressed relative to guidelines for this eco-region. Results from the eight parameters are aggregated over time to produce a single score for each sample station. In general, stations scoring 80 and above did not fail water quality standards or guidelines and are of "low concern", scores 40 to 80 indicate "moderate concern", and water quality at stations with scores below 40 are of "high concern". For more information about the WQI please visit <https://green2.kingcounty.gov/streamsdata/WQI.aspx>
